

# Pralhad Raj Parajuli

Computer Engineering Student

Email: pralhad.078bct046@acem.edu.np | GitHub: [github.com/Pralhadrajparajuli](https://github.com/Pralhadrajparajuli)

## About Me

I'm a passionate computer engineering student at Advanced College of Engineering, eager to learn, grow, and build real-world applications using modern technologies. I enjoy coding, exploring new tools, and turning ideas into functional digital solutions.

## Skills

- HTML & CSS
- React
- Python
- Blockchain

## Projects

### 1. Nepali Audio Mate

A Nepali Text-to-Speech application that converts Nepali text into natural-sounding audio using modern TTS models.

### 2. A Blockchain-based Fundraiser

A decentralized donation platform built on blockchain, ensuring transparency and security in fundraising campaigns.

### **3. Expense Tracker**

A simple and user-friendly application to track daily expenses and manage personal finances effectively.
